

Lesson 2: Participant Exercises

(Cache Admin Only)

A very small number of people will need to modify or update the participants in the system. This lab quickly looks at how this information is accessed, but is not intended to be a thorough treatment of the subject.

1. Log in with your assigned user name and password.
2. Launch the Configurator
3. From the **Applications** menu (upper left) select **Platform** (last item)
4. Expand **Participant Modeling**
5. Double Click **Participant Setup**
6. In the 'Organization Search' screen click in the roles field and select from the drop down 'Buyer'
7. Click on the binoculars  and observe the search results.
8. Repeat search for roles of Carrier, Enterprise and Seller as you did in 6 and 7.
9. Search for role = 'Node' and click on binoculars
10. Double click on your cache ID
11. Explore the different tabs and information but do not change anything.
12. Click on extended attributes icon.  at top right of screen. Observe the default values for the node.
13. Exit the extended attributes box by clicking on the **black** 'X' at the top right.
14. Exit the Organization Details by clicking on the gray 'X' at the top right.
15. Exit the Configurator by clicking on the **black** 'X' at the top right.
