

## Lesson 4: Cache Layout Exercises

Cache Users will seldom do much with Cache Layout, but it may be helpful to be able to see what is on the system.

1. Log in with your assigned username/password.
2. Launch the Configurator
3. From the **Applications** menu (top left) select **Warehouse Management**
4. Expand Warehouse Layout
5. Right-Click on Zones, select Details.

This brings up the list of all the zones in the system.

6. Select a zone & view the details (don't change anything!)
7. Logout.

At this point you may explore a little bit, but please don't change anything. Logout when you are done.
