

## **VAS – Work Order Console**

This lesson teaches how to confirm the completion of some or all of the kitting or refurbishment requested in a work order.

### **VAS Work Order Console**

1. Select **Work Order Console** from the VAS menu
2. Enter the **Work Order Number** from the previous lesson into the Search Screen
3. Click **Confirm**, which launches the VAS Station Console
4. On the Console select **Location** (e.g. V1-0000001)
5. Set **Qty to Process**
6. Click **Save**, and note the updated fields
