

## To create a dekitting work order for a trackable kit

- 1 On the VAS menu, click **Create Work Order**.
  - 2 On the **Create Work Order** screen, click the **Service Item Group** drop-down arrow, and then click to select **De Kitting**.
  - 3 Click the **Purpose** drop-down arrow, and then click to select **Stock**.
- Service Item ID is a required field, and will default to DEKITTING.*
- 4 Click to select the **Release Immediately** check box.

- 5 Under **Work Order Item Data** in the **Item ID** text box, search for or type the trackable kit's **Item ID**.
- 6 In the **Requested Quantity** text box, type the **number of kits to be de-kitted**, and then click **Proceed**.
- 7 On the **Create Work Order** screen, click **Save**.

## To complete work order tasks for a trackable kit

- 1 On the **Work Order Details** screen, click **View Tasks**
- 2 On the **Task List** dialog box, click to select the top **Task ID** check box, and then click **View Details** or click the **BatchNo** link to complete all move tasks at once.

*A BatchNo link may not be available for all kits. This task explains how to complete move tasks for individual kit components.*

- 3 For the first **task**, click **Complete**
- 4 On the **Complete Task** dialog box under **Trackable ID #**, click **+**, type the **kit's trackable ID** in the text box, and then click **Save**
- 5 When all tasks are completed, click **Close** on the **Task Detail** screen, and then click **Close** on the **Task List** screen.

The screenshot illustrates the steps to complete work order tasks for a trackable kit. The main window is 'Work Order Details' for work order # 29232. A 'Task List' dialog box is open, showing a list of tasks. A 'Task Detail' dialog box is open for task ID 3592431394. A 'Complete Task' dialog box is open, showing the 'Task List' with the top task selected. A 'Task Detail' dialog box is open for task ID 3592431394, showing the 'Trackable ID #' field with a dropdown menu open. A 'Task List' dialog box is open, showing the list of tasks with the top task selected.

## To complete and confirm the work order for a trackable kit

- 1 On the **Work Order Details** screen, click **Confirm**  
*The VAS Station screen displays after the JAVA coffee cup displays.*
- 2 On the **VAS Station** screen, click the **Location** drop-down arrow, and then click to select **V1-000001**.
- 3 In the **Qty to Process** text box, type the **number of kit(s) to process**, and then click **Save**

- 4 On the **Trackable ID Entry** dialog box in the *first* **Trackable ID #** text box, type the **kit's** **Trackable ID number**, and then press [TAB].
- 5 In the *second* **Trackable ID #** text box, type the **item's** **Trackable ID number**, and then press [TAB].

*At this point, putaway tasks to move the kit components from V1 to storage are released to the scan guns.*
